MOTTURAbTECHNOLOGY

MOTTURA

safeguarding your security

MOTTURA b TECHNOLOGY

The new MOTTURAbTECHNOLOGY range represents Mottura's continuous innovation in the field of motorized locks. The study of the logo already shows what is the core of this new family of products branded Mottura, that is the wireless transmission.

The new electronic access controls are completely wiring-free, communicating with each other via BLE (Bluetooth low energy) connection.

EVOLUTION IS NECESSARY

Changing habits is not easy, but evolving is necessary. Mottura's new product range makes it easier to adapt our security to the standards of the digital world, thanks to systems and interfaces that are easy to install, learn and use with the ease of everyday gestures.

THE bTECHNOLOGY LINE

The best technologies for comfort and protection: Bluetooth, Cloud and App for smartphones and WEB (Desktop), numeric keyboards, fingerprint readers, transponder cards and Bluetooth remote controls. There is no limit to the possibilities of customization of command and security systems.

MOTTURA bTECHNOLOGY

bBLOCK

SPECIFICATIONS

- Lock with integrated electromechanical rod locking system
- Unlocking by command of the electromagnet via bMOTTURA app, dry contact or from peripherals of the bTECHNOLOGY line
- Controlled and managed by the bMOTTURA app system + bWEBTECHNOLOGY
- Up to 100 devices supported (smartphones, peripherals, codes, etc.)
- Integrated access control (data log of last 1000 events and time control)
- Managed both locally and remotely via cloud with or without bBRIDGE
- Lock status (open/closed) visible from the bMOTTURA app
- Standard Mottura fastening type, replaceable without making any modifications
- Automatic locking when the bolts are completely closed
- Internal buzzer for notifications
- Mains or battery powered
- Ble (Bluetooth low energy) 5 integrated

2 Versions available:

| OPENING with knob | OPENING and RELOCKING via handle |

MOTO
